# *Cuisine*

A story of love and respect for the land. The Resort and the agricultural estate speak of the two worlds of Palazzo di Varignana: hospitality and agriculture. The flavors of the Emilian land and a careful selection of excellent products processed by the skilled hands of our Chefs, accompanied by impeccable service, are the ingredients to make each event unforgettable. The menu will be defined together with the bride and groom, who will be able to take advantage of an accurate and skillful interpretation of the tradition of creative cuisine of the territory and beyond.

**RESORT**

Palazzo di Varignana rises in the elegant setting of the hills of the town from which it takes its name, a few kilometres from Bologna and Castel San Pietro Terme, totally immersed in the lush green landscape. The heart of the resort is Palazzo Bentivoglio - an ancient castle dating back to 1705 and renovated respecting the charm of its history - around which the complex rests on 30 hectares of land divided between vast green spaces, parks, water sources and breath-taking views.

# *Rooms, Suites & Villas*

The 150 large rooms of Palazzo di Varignana are divided in 7 different buildings connected to the main services through underground corridors. The rooms have been designed with different styles, according to the building.

From business, to classic, to modern. Each guest can find the best solution for his stay

A stone's throw from the resort, our villas are set in the natural spectacle of hills and gullies. Like enchanted places in which space and time seem to have been suspended, they are the result of the recovery and regeneration work of ancient country houses brought back to life to offer guests a holiday immersed in privacy and relaxation, among private pools and large

## *Pre & Post stay*

For your pre and post wedding stays, you can enjoy the pleasures of traditional Bolognese cuisine at Trattoria Le Marzoline, or take a trip through history at the Treno Reale Carrozza Ristorante, an authentic vintage coach, dating back to 1921, prototype of the royal train, with its refined and elegant cuisine.

Still you can taste wines and oils of our Agricultural Estate at the Winery: the tasting room and the panoramic terrace welcome guests to discover the wines and EVO oils, fruits of our lands.

# Activities

During your stay, you can spend relaxing moments at Varsana SPA, a wellness oasis that finds its highest form of inspiration in nature, offering guests an authentic immersive experience in the land.

Sports are an integral part of the wellness proposal at Palazzo di Varignana.

At guests' disposal is a sports area with tennis, paddle, basketball and a golf practice area consisting of putting green, chipping green and driving range with 11 shooting stations.
